OPEN BURNER

* Easy to clean, cast Iron burner heads - removable

* Designed so flame stays under pan or pot and delivers heat where you need it - not licking up the side wasting energy!

12" X 12" TOP GRATE

- Pilot shield protects Pilot from spills and grease. Easy to see and light the pilot

- Cast Iron Construction for heavy duty use

- Sloping design of cast iron bowl guides any spill away from the burner ports, protecting the flame, not allowing clogs. Heat is radiated upward.
