

Convection Ovens

Standard Features:

- * Bakery depth (RCOD-1 and RCOD-2) accommodates full size sheet pans front to back, side to side.
- * Standard depth (RCOS-1 and RCOS-2) accommodates full size sheet pans side to side.
- * 70,000 BTU oven burner in the standard depth oven and 80,000 BTU in the bakery depth oven, designed for rapid heat up and recovery.
- * Air deflectors strategically placed around the blower for efficient air circulation.
- * 5 Chrome plated racks with 11 rack positions.
- * Can stack two ovens. Unique design requires NO additional flue extensions, easy installation.

RCOS-1
