

# Deep Fat Fryers

## Standard Features:

- \* High quality heavy gauge Stainless Steel Tank.
- \* Cast Iron burners (tube design) engineered for maximum efficiency. Flame stays within the tube to heat the oil instead of escaping out the flue, wasting energy.
- \* No additional flue assembly in the field, ready to install.
- \* Open base construction provides better airflow allowing gas to burn cleaner for better combustion.
- \* Designed so that baskets of food product sit lower in cooking oil. More product cooked equates to more profit!
- \* Tube fired design (RFT Models) has faster recovery for high volume cooking.
